Lori

Just wanted to follow up and re-confirm the presentation September 29th from ~ 10 a.m. to 2 p.m. The meeting will be at the Hilton in downtown Portland. The group will provide an attendance list after the meeting as requested. We will have a phone hook-up as requested. It would be very helpful if you could provide the EPA's slide deck that will be used for the presentation in advance of the meeting.

We were also asked to get confirmation from EPA that attendees would have an opportunity to ask questions, time permitting.

Regards,

Bruce White

Subject: RE: PCI group presentation

Hello, Bruce. The EPA team has confirmed that we can travel to Portland on September 29th to provide the FS Chapter 3 and 4 presentation to the PCI group. We cannot be in Portland until at least 10 a.m. Some of our contractors and other EPA folks will participate by telephone, so there needs to be a conference line set up. We expect that the meeting will be no longer than 4 hours total as was the case for the LWG on July 31. EPA will want a list of attendees after the meeting. Let me know if you have any questions. Thanks.

Once again, I apologize but I have to nudge for confirmation of 9/29, as we are required to put up a deposit to reserve or potentially lose the room.

Thx

Lori

Sorry for being a nudge, but can EPA confirm 9/29.

We need to lock in the room and give our participants notice.

Thanks,

Bruce White

Following up on our discussion yesterday, the Group would like to have an in person presentation from EPA on 9/29. Of the three dates you proposed, that is the one on which we can get a room. (Portland Hilton)

As soon as you can confirm, we will send notice to PCI Group members.

Thanks

Hello, Bruce. I've checked in with Kristine. We would like to propose a webinar format for the presentation. A webinar eliminates the need to travel which should help maximize participation by the PCI members and reduces the resources and time for everyone. The dates Kristine and I

are available are September 22, 24, and September 29. Let us know which of those dates work for the group. Thanks.

Lori

In an effort to do some PCI Group planning we would greatly appreciate your providing, before our 8/13 meeting, some dates in the near future when EPA would be available to make a presentation to the PCI Group.

We would like to lock in one of those dates when we have group together this week.

Thanks,

Bruce White

Lori

Thanks for getting back so quickly.

If your schedules happen to change between now and then, please let us know - we can be flexible.

Hello, Bruce. Unfortunately, Kristine and I both are not available for meeting with the PCI group on the 13th. We will be in touch about a proposed time and process by which we can present the draft FS to the PCI group sometime in the future.

Lori

Just wanted to follow up to see if there was any way possible that you and Kristine might be able to open up your schedule to be available on the 13th; or, alternatively, if Kristine could make it, perhaps another of EPA's regional counsel might accompany here.

This in person meeting has been scheduled for some time, and is likely to be the only such meeting through year-end at which more than 100 party representatives will be together in the same room in Portland. We believe that the timing of this in person meeting, with chapters 2 and 3 of the FS having recently been distributed by EPA, offers a particularly good opportunity for the Agency to connect with the PCI Group.

We can include such a presentation most any time that day, though earlier would be preferable if that works for EPA.

We greatly appreciate EPA's further consideration of this request.

Thanks,

Bruce White

Hello, Nancy. We can provide a presentation
to the PCI group but neither Kristine nor I are
available on August 13th. We are also going to
think about how it could be done most
efficiently. We will be back with you to
schedule a day and time but it likely will not be
until later in August or September.

Subject: RE: PCI group presentation

Hi Lori,
Yes, I think there is value in the PCI Group understanding EPA's approach to the site as early as possible.

The allocation process is proceeding simultaneously with the EPA administrative process. The FS plays a critical role in helping the PCI Group determine how to apply its allocation process to specific areas (e.g. the new draft FS has changes to SMA, SDUs cost assumptions, etc). The FS draft described on Friday has implications for the Group's approach to advocacy. The Group needs to understand how the decision trees and scoring matrices developed by EPA may operate in the selection of a remedy so that the Group can get its process to match-up with the requirements of the ROD. There are many steps to developing an allocation process that all the participating parties can agree to and so the Group has been and is working on that process now. The draft FS structure influences our process and our process needs time to incorporate those changes. We understand that it is early and it is a draft, but I think this will keep the allocation process moving forward effectively.

I would be happy to talk and am around the office most of the day.

Subject: PCI group presentation

Hello, Nanci. Kristine informs me that you would like Kristine to present Chapters 3 and 4 to the PCI group. In thinking about what the appropriate time for outreach to the PCI might be, we would like to understand the allocation process better. Is the allocation process proceeding based on EPA's draft FS modifications that we are providing to the LWG for comment or will it be based on the final FS? Or might the allocation even wait for the ROD? Thanks for your attention to this request.
